KULTHORN KIRBY
PUBLIC COMPANY LIMITED
HERMETIC COMPRESSORS

**World Class Products for
Refrigeration & Air Conditioning**

Company History

Kulthorn Kirby was the first hermetic compressor manufacturer in Thailand, established with Thailand Board of Investment promotion in 1980. The company was officially opened on January 13, 1982, with the initial production output of over 100,000 compressors in the first year of operation. Later, the production capacity was expanded to 5,000,000 units/year, of which more than 70% are exported worldwide. In 1991, the company was listed in the Stock Exchange of Thailand with 500 millions Baht registered capital and in 2013, registered capital was increased to 1,000 millions.

Kulthorn Kirby specializes in the manufacture of hermetic reciprocating compressors for domestic refrigerators, commercial refrigeration systems and air conditioners. We believe in our vision, which is to be the producer of best quality, world standard products that best meet our customers' needs. With our concern for the environment and for meeting relevant safety standards, Kulthorn Kirby compressors are approved to many international performance and safety standards such as CE, UL, TUV, CCC, SASO and TISI.

Employees:

2,200 persons

Land area:

65-3-2 rai (21 Acres)

Factory space:

85,300 sq.m.

Product:

Hermetic Motor Compressors for Refrigeration
and Air-Conditioning Products

Brand name:

KULTHORN

Plant capacity:

4 million units/year of refrigeration compressors
and 1 million units/year of air-conditioning
compressors

Major Shareholders:

Simakulthorn Group
Heatcraft Australia Pty Ltd.
Original Equipment Manufacturers

Subsidiaries:

Kulthorn Kirby Foundry Co., Ltd.
Kulthorn Premier Co., Ltd.
Kulthorn Steel Co., Ltd.
Kulthorn Materials & Controls Co., Ltd.
Kulthorn Metal Products Co., Ltd.

Model Number System

Application

1 = Low Back Pressure. Motor With Normal Starting Torque.

2 = Low Back Pressure. Motor With High Starting Torque.

3 = High Back Pressure. Motor With Normal Starting Torque.

4 = High Back Pressure. Motor With High Starting Torque.

5 = Air Conditioning. Motor With Normal Starting Torque.

6 = Medium Back Pressure. Motor With Normal Starting Torque.

7 = Medium Back Pressure. Motor With High Starting Torque.

8 = Air Conditioning (High eff.) Motor with Normal Starting Torque.

9 = Commercial Back Pressure. Motor with High Starting Torque.

0 = Commercial Back Pressure. Motor with Normal Starting Torque.

Compressor Family : AZ-AZA-AE-BA-CA-WJ-AW-KA-LA

OUR VISION : To be the leader in the motor compressor business in ASEAN

MOTOR TYPE / WIRING DIAGRAM

RSIR: Resistance Start Induction Run

RSIR motor with current relay:

The motors have a normal starting torque and are designed for completely self-equalizing capillary tube.

RSIR motor with PTC relay:

The motor functioning is similar to the RSIR with current relay motor, except for the current relay, which is replaced by the PTC relay.

RSCR: Resistance Start Capacitor Run

The motors have a PTC starting torque and a run capacitor. Their functioning is similar to the PSC motor. These compressors have a normal starting torque.

CSIR: Capacitor Start Induction Run

The motors have a high starting torque, using an electrolytic starting capacitor. Recommended for applications with capillary tube or expansion valve systems.

PSC: Permanent Split Capacitor

A run capacitor in series with the start winding produces a higher efficiency (EER) in comparison to a RSIR motor. They have a normal starting torque and are designed for capillary tube control devices, with equalized pressures.

CSR: Capacitor Start Capacitor Run

This motor arrangement uses a start capacitor added to a PSC circuit. The high starting torque is suitable for unequalized systems with capillary tube or expansion valve, maintaining the same efficiency of a PSC motor.

3 Phase Motor

Excellent starting torque, a wide operating voltage range, no ancillary starting devices (relays, capacitor), reduced starting load on any individual phase and minimal impact on nearby lighting, etc.
